

# Maths takes you places...

*'Mathematics is the language used by the natural world.*

*Maths allows us to make predictions, to both see where we are going and from where we have come.'*

- Dr Ben Galton-Fenzi

## Discovery on the Ice

A PhD on interactions between Antarctic glacial-ice, the oceans and climate has led Dr Ben Galton-Fenzi to a career as a glaciologist.

Working at the Australian Antarctic Division and the Antarctic Climate and Ecosystems Cooperative Research Centre, Ben is using skills gained during his PhD to improve our understanding of the climate system.

**The CSIRO-UTAS PhD Program in Quantitative Marine Science (QMS) is offered through the University of Tasmania's specialist Institute for Marine and Antarctic Studies and CSIRO Marine and Atmospheric Research.**
